Slide 6: Defining DevOps

"DevOps is about humans. DevOps is a set of practices and patterns that turn human capital into high-performance organizational capital."

- John Willis

Slide 7: Another DevOps Definition

"DevOps is the emerging professional movement that advocates a **collaborative** working **relationship** between Development and IT Operations, resulting in the fast flow of planned work (i.e., high deploy rates), while simultaneously increasing the **reliability**, **stability**, **resilience** and **security** of the production environment."

- Gene Kim

Slide 8: A Full Lifecycle

A Full Lifecycle

Building, Deploying, Operating and Supporting

DevSecOps = security teams incorporation

Entire organization needs to transform!

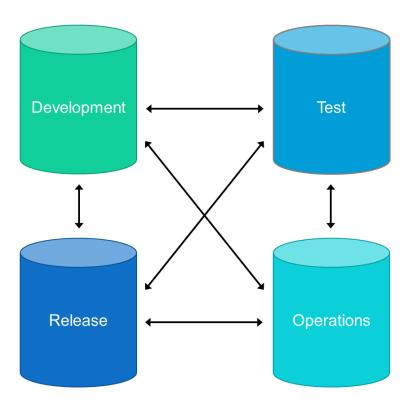

Slide 9: From 4 Silos into 1 Team

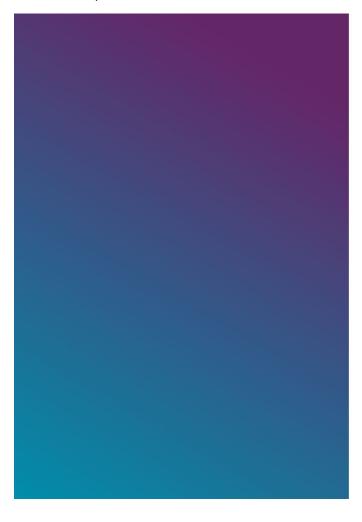

Slide 10: From 4 Silos into 1 Team

From 4 Silos into 1 Team

Slide 11: NoOps is a No Go!

NoOps is a No Go!

A lot of buzz around "NoOps"

Cloud platforms provide *some* "Ops" services

Operational excellence will never stop being needed in house!

It's not the name of the team

It is the culture of collaboration

It's building practices around CALMS

CALMS = (Culture, Automation, Lean, Measurement, Sharing)
